How to switch your router to wireless AP mode?

Step 1

Connect your computer to your router, and visit <u>http://tendawifi.com</u> or <u>http://192.168.0.1</u> to log in to the router's web UI.

Step 2

After logging in, please click More.

			Client+AP Mode Expand any WIFI network e	asily.				Switch Mode

After filling in the password and confirming that the Wi-Fi password is correct, click **Connect**.

Step 6

Wait for the router to reboot.

Step 7

At this time, you will be redirected to the router login page.
